

### Engine heater 2000W

The engine heater heats and circulates coolant through the engine block which reduces hunting and white smoke during start up. It also reduces battery and engine wear. The heater should be separately mounted in a protected location.

Technical data:

Make	Calix
Power output	2000W
Voltage	220-240V with protective earthing
Thermostat shut-off	50°C
Overheat protection	Double
Cable length	1 m
Extension cable	4.8 m
Cable area	3x1.5mm <sup>2</sup> (3x15 AWG)
